

YIELD ENHANCER / FERTILIZER / PGPR

Brand Name : Atulya N.P.K 19: 19: 19
 Group Name : 100% Water soluble Fertilizer

Tech. Name : Nitrogen, Phosphorus & Potassium

Application : Atulya NPK (19:19:19) is a complete Water Soluble, Ideal Fertilizer which provides all major macros Nutrients N-P-K in a balanced ratio to the plants through foliar spray or Fertigation at the time of maximum requirement with the lowest losses. Atulya NPK (19:19:19) can fulfill entire requirement of one or all three major plant nutrients and minimizes the cost on basal Fertilizers. Atulya NPK (19:19:19) increases net income, lowers the cost of production per until crop yield, minimizes the chemical load on the Environment.

Crops : All Types of Crops.

Doses Recommended :

Dosage : Foliar application : 4-5 gm/Ltr of water.
 Fertigation: 1-3 kg/acre

Note : For fertigation number of application depends on crops pattern.

Fertigation : Use dosage based on results of the soil analysis, crop and its growth stage. However, do not mix with fertilizers contain : ing Calcium and Magnesium salt.

Pkg. Sizes	1 Kg.
Pcs/Box	1 x 25
Total Qty.	25 Kg.

Packing Material : Pouch
