

Brand Name : Kavach  
Group Name : A Bio Pesticide

Tech. Name : Biostimulant  
Botanical Extracts

Product Info. : Kavach helps improve crop health, quality and management of stress. Kavach protects the crop from various sucking pests, bacterial infections and fungal infections. Simultaneously, Kavach does not harm predator pests, natural enemies, pollinators, plants and humans. It helps create a healthy ecosystem for crop growth and development.

Doses Recommended :

Mix 3ml. of Kavach in 1L. of water and liberally spray the crops (from above and below) using a foliar or power spray. Repeat every two weeks to prevent infestations, or every week in case of heavy infestations.
